

# DESGRASOL

## DEGREASER FOR MESH Concentrated

### DESCRIPTION:

DESGRASOL is a highly efficient cleaning and degreasing concentrate for printing screens. It is suitable for all mesh types and prevents pinholes and irregularities in the coating.

Desgrasol in solutions emulsify dirt and grease thus making them water soluble. A strong foaming action accelerates the degreasing process and is an aid in determining rinsing.

### PREPARATION OF THE CONCENTRATE:

MIX 1 lt of de Desgrasol concentrate with 4 lts of water.

### APLICACION:

Squirt or spray the solution onto the wet screen and brush both sides using a nylon bristle brush until the foam is distributed equally over the screen. Then rinse with water until it runs free of foam.

After drying the screen is ready to be coated.

### PERSONAL PROTECTION:

It is recommended to wear protective glasses and gloves.

# BLOCK 80 RAPID

## RETOUCH LAQUER SOLVENT RESISTANT

### DESCRIPTION:

BLOCK 80 RAPID is a highly viscous screenfiller with excellent flow properties for blocking-out stencils. Very suitable for applications by coating trough, very good resistance to all of solvents usually used in screen printing.

Easy decodable with water or CERO CERO products

### APLICACION:

Suitable for retouch with a brush in opened areas of the screen.

### PERSONAL PROTECTION:

It is recommended to wear protective glasses and gloves.
